Get to know new Executive Director MaryEllen Frango.

Welcome, MaryEllen! Tell us what brought you to The Greens at Greenwich?

I have been in various roles in The Greens family for four years. The Executive Director title is new but not my presence in the community. I am grateful for the opportunity to lead the team and partner with our families to continue The Greens' mission of offering quality care and exceptional experiences to those with memory impairment. Senior Care is my calling, not a job.

What do you think makes The Greens at Greenwich so special?

We are a small, privately owned assisted living community where people living with memory impairment receive personalized care and compassionate, around-the-clock support. Our community includes all forms of memory impairment, including dementia, Alzheimer's, and other forms of memory diagnoses. We are a Purple Flag community recognized by the Alzheimer's Association and CT Assisted Living Association as a trusted leader in providing excellence in dementia care for 25 years. The Greens has a dedicated and passionate team of clinical staff on site 24/7. We are a recognized leader in utilizing the creative arts therapies as an effective way for those with memory impairment to express themselves through art, music, and dance. The Greens is not only family-owned—we are a family. You walk through our doors and feel at home.

What are your plans for the community as the new Executive Director?

We will continue offering exceptional care, licensed creative arts therapists, all-inclusive pricing and personalized attention for each resident. My plan is to further enhance our resident experience by offering new initiatives and programs that inspire joy, meaning and connection.

We are partnering with volunteers from local high schools for generational programming that features "buddying" with residents for reading, playing games, documenting their stories and memories, and performing their musical talents for us. Each month a dementia care specialist joins us to expand our understanding and caring for people with memory impairment. Our families are encouraged to call me on my mobile for quick access to answers and support.

By adhering to the highest standards of professional care, continuous learning, and forming personal connections with the residents and their families, we will ensure the most enriching experience for every member of our community. It's my privilege to walk this journey with families and their loved one to provide a safe, loving, and supportive environment.

Come for a visit. Call 203.531.5500 or email maryellen@thegreensatgreenwich.com
